OSA-1059-64

24 MAR 1964

MEMORANDUM FOR: Chief, Communications Division, OSA

SUBJECT: Cable Distribution

1. A review of cable handling and distribution procedures involving incoming and outgoing traffic through the Signal Center indicates a necessity for re-establishing distribution of certain cable traffic from the Signal Center to those offices within Osa for further distribution within and without the Division.

2. Hereinafter, the following distribution from the Signal Center will apply:

A. WFA/Operations: No change.

B. TCO/Osa:

(1) Whenever the following plugs, indicators, or control indicators appear on cable traffic singularly or in conjunction with any other cable plugs the cables will be passed to the TCO/Osa for distribution:

[redacted] TALNET-RECHER, and all cables handled in the TALNET, TALNET-RECHER system or COMINT system whether singularly or jointly with another system.

(2) All cables plugged [redacted]

(3) All [redacted] and SITNET's when recognizable as such.

(4) All [redacted] from WFA circuit.

C. DCO/Osa (Registry) receives all other cable traffic. TCO/Osa, [redacted] will coordinate distribution of cables previously handled by his office with [redacted] Registry Branch.
